The Scientific Pro-Rectorate

No. 51 of 02.06.2021

To whom it may concern

The Bioethics Commission from Banat University of Agricultural Sciences and Veterinary Medicine „King Michael I of Romania” from Timișoara, analyzed and approved the experimental protocols consisting in studies on horses in the period June 2021 to December 2022 for the project: **“Research for Diagnostic and Treatment of the Acropodial Pathology in Horses”** conducted by Assistant professor Zaha Cristian, DVM from the Faculty of Veterinary Medicine Timisoara, Dept. of Surgery.

The experiments assure the proper accommodation and animal handling in accordance to the Directive 2010/63/EU. Also the experimental protocol includes methods for preventing and reducing animal distress in accordance to the recommendations of European Union and Romanian legislation.

We believe that the proposed study can be carried out under the conditions described in the protocol and complies with the recent regulations on protection of animals used for experimental and other scientific purposes.
