TABLE OF CONTENTS

Section I: Matched X-ray spectroscopy of the photocatalysts.....	S3
Section II: Energy-dispersive X-ray spectroscopy of the photocatalysts.....	S5
Section III: NMR spectra	S7
Section IV: FTIR spectra	S8

Section I: Matched X-ray spectroscopy of the photocatalysts

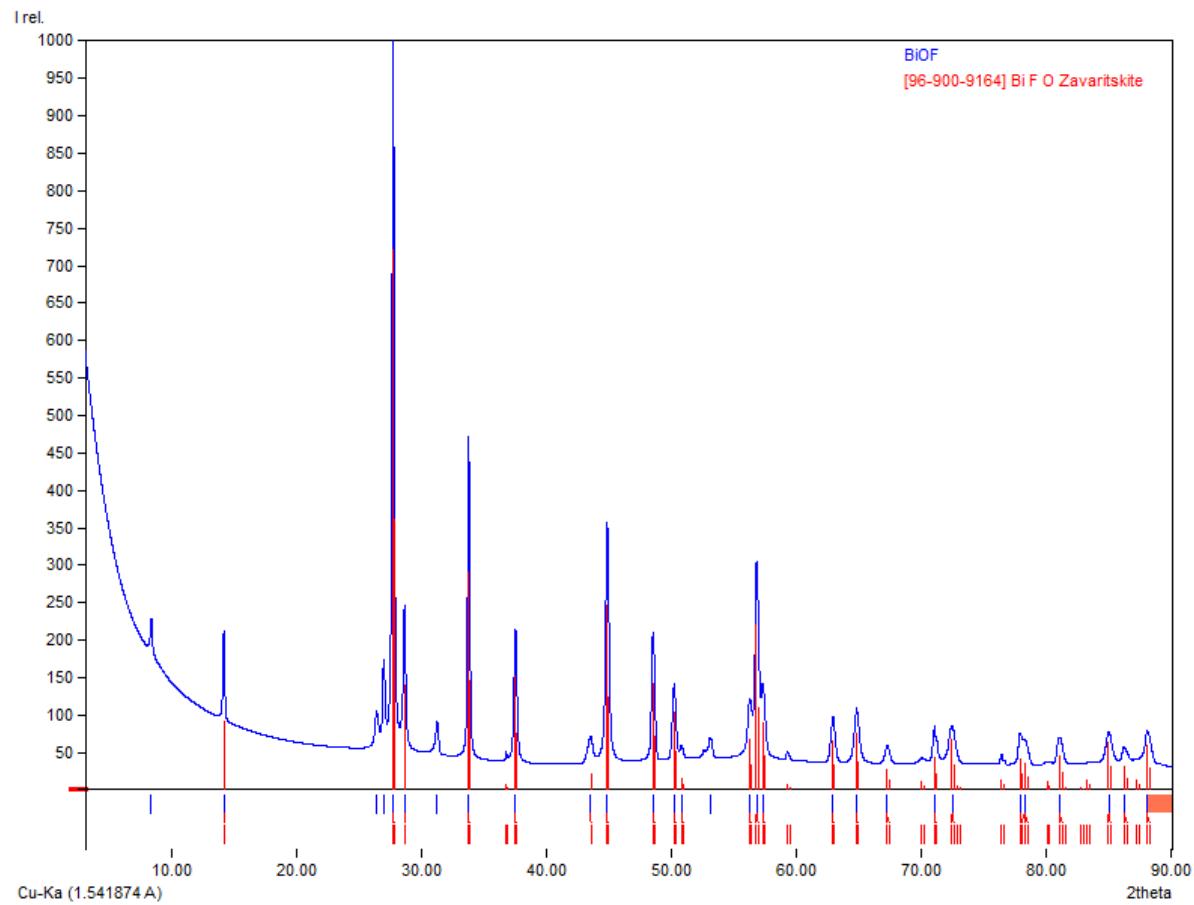

Figure S1. Matched X-ray spectroscopy of the BiOF using Match!3 software (version 3.0).

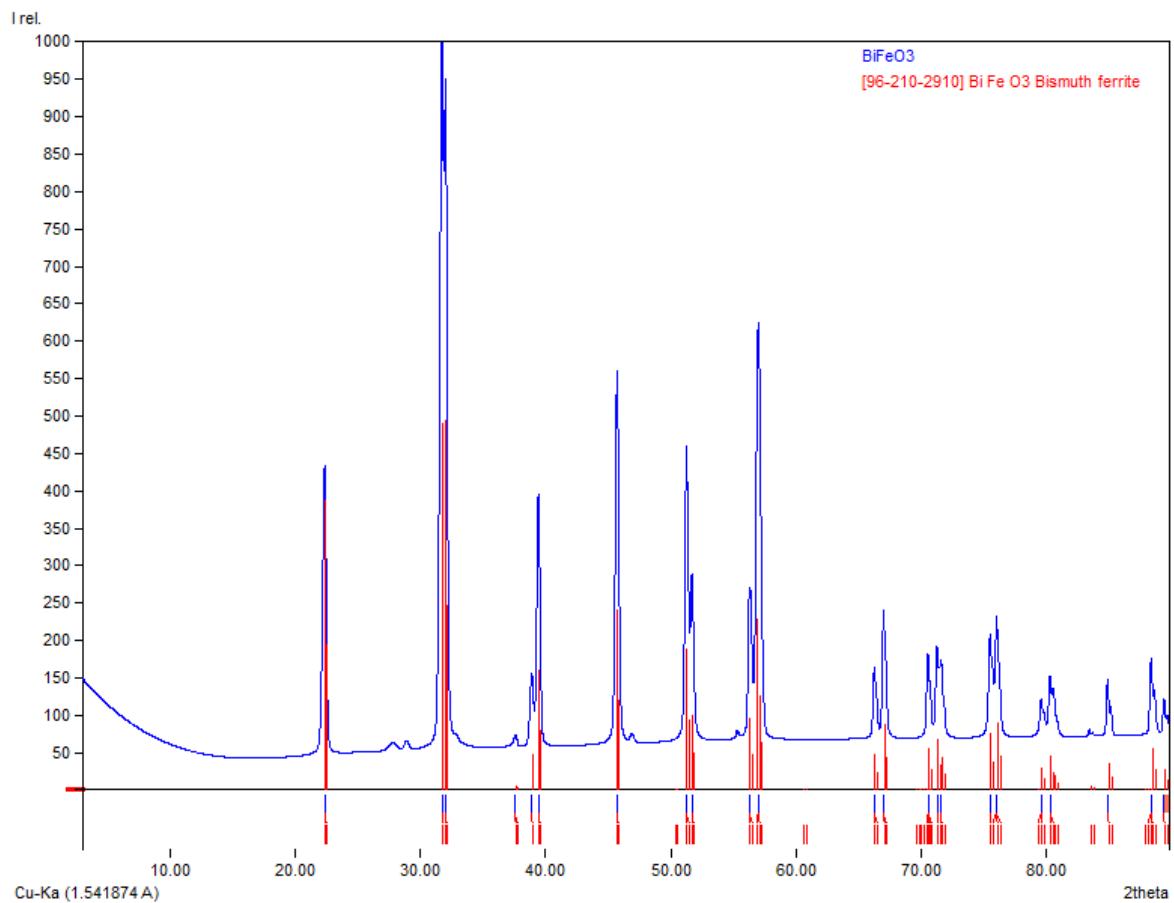

Figure S2. Matched X-ray spectroscopy of the BiFeO_3 using Match!3 software (version 3.0).

Section II: Energy-dispersive X-ray spectroscopy of the photocatalysts

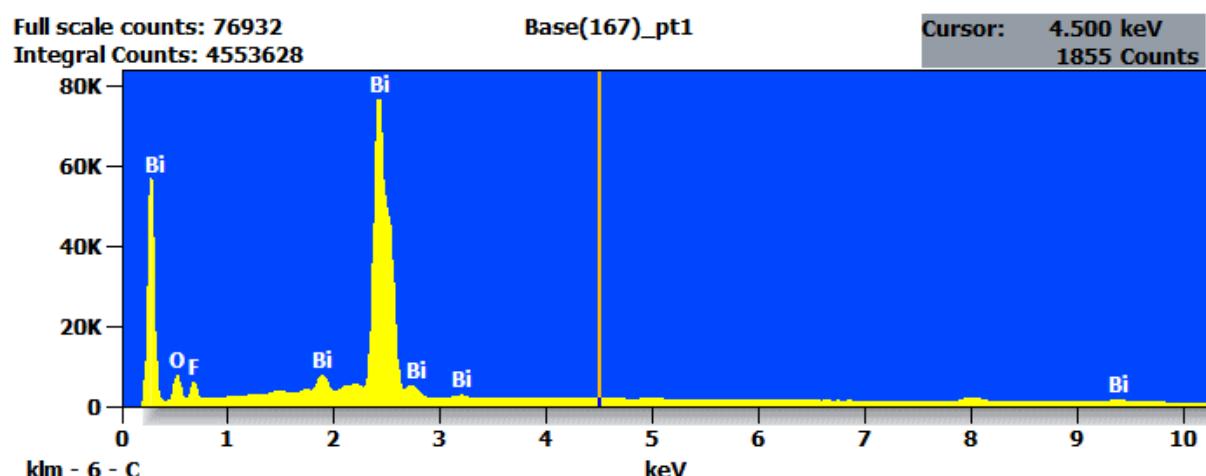

Figure S3. EDX elemental analysis of BiOF.

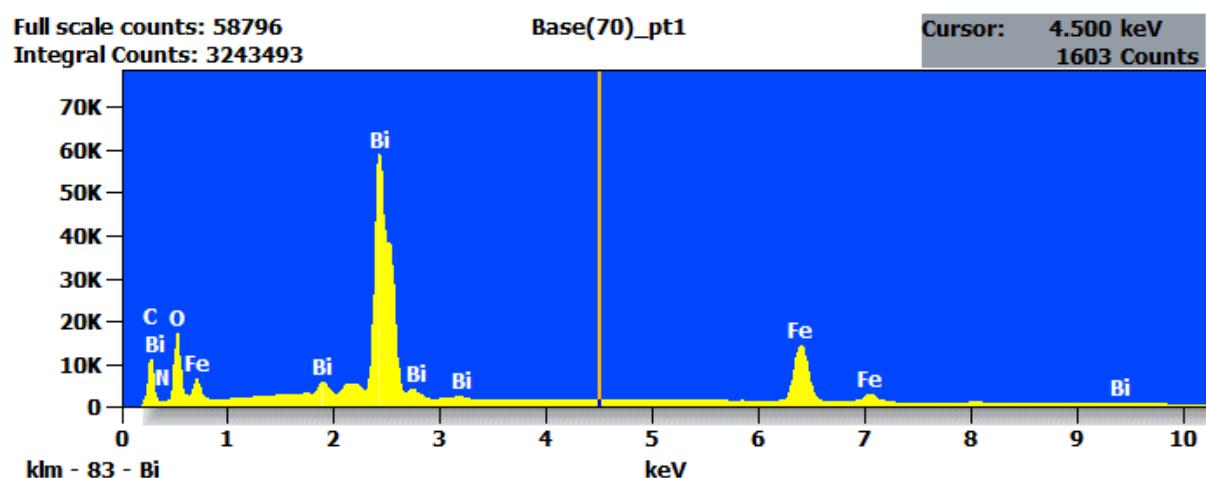

Figure S4. EDX elemental analysis of BiFeO₃.

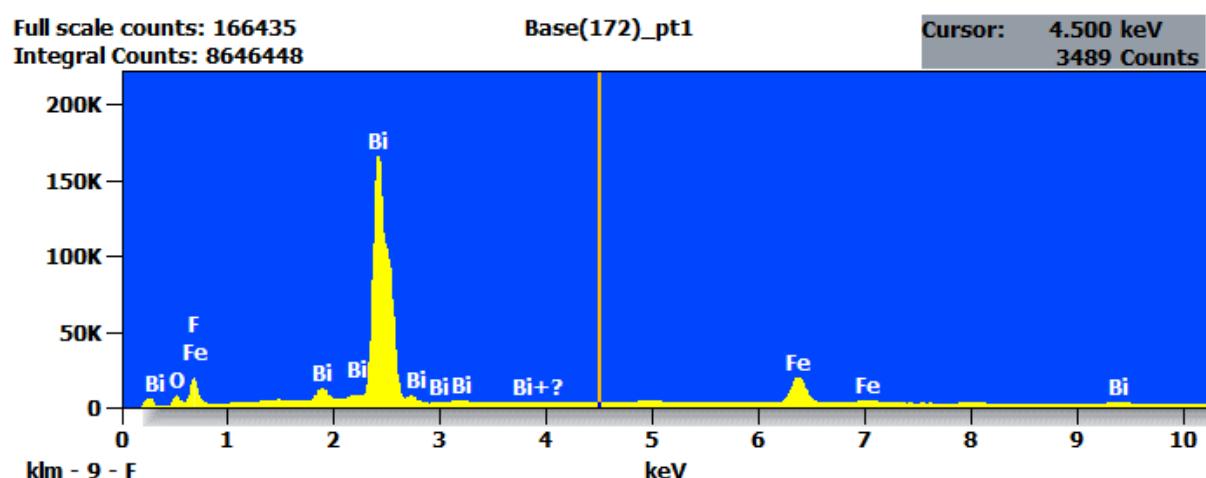

Figure S5. EDX elemental analysis of BiOF/ BiFeO₃ composite.

Table S1. Weight and atomic percentages of BiOF.

	Bismuth	Oxygen	Fluorine
Weight %	79.89	11.23	8.88
Atom %	24.64	45.25	30.11

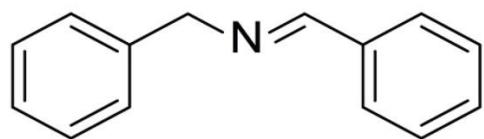

Table S2. Weight and atomic percentages of BiFeO₃.

	Bismuth	Oxygen	Iron
Weight %	65.83	13.22	20.95
Atom %	34.19	45.26	20.55

Table S3. Weight and atomic percentages of BiOF/ BiFeO₃ composite.

	Bismuth	Oxygen	Iron	Fluorine
Weight %	81.04	4.97	8.14	5.84
Atom %	33.66	26.97	12.66	26.71

Section III: NMR spectra

N-benzylidenebenzylamine

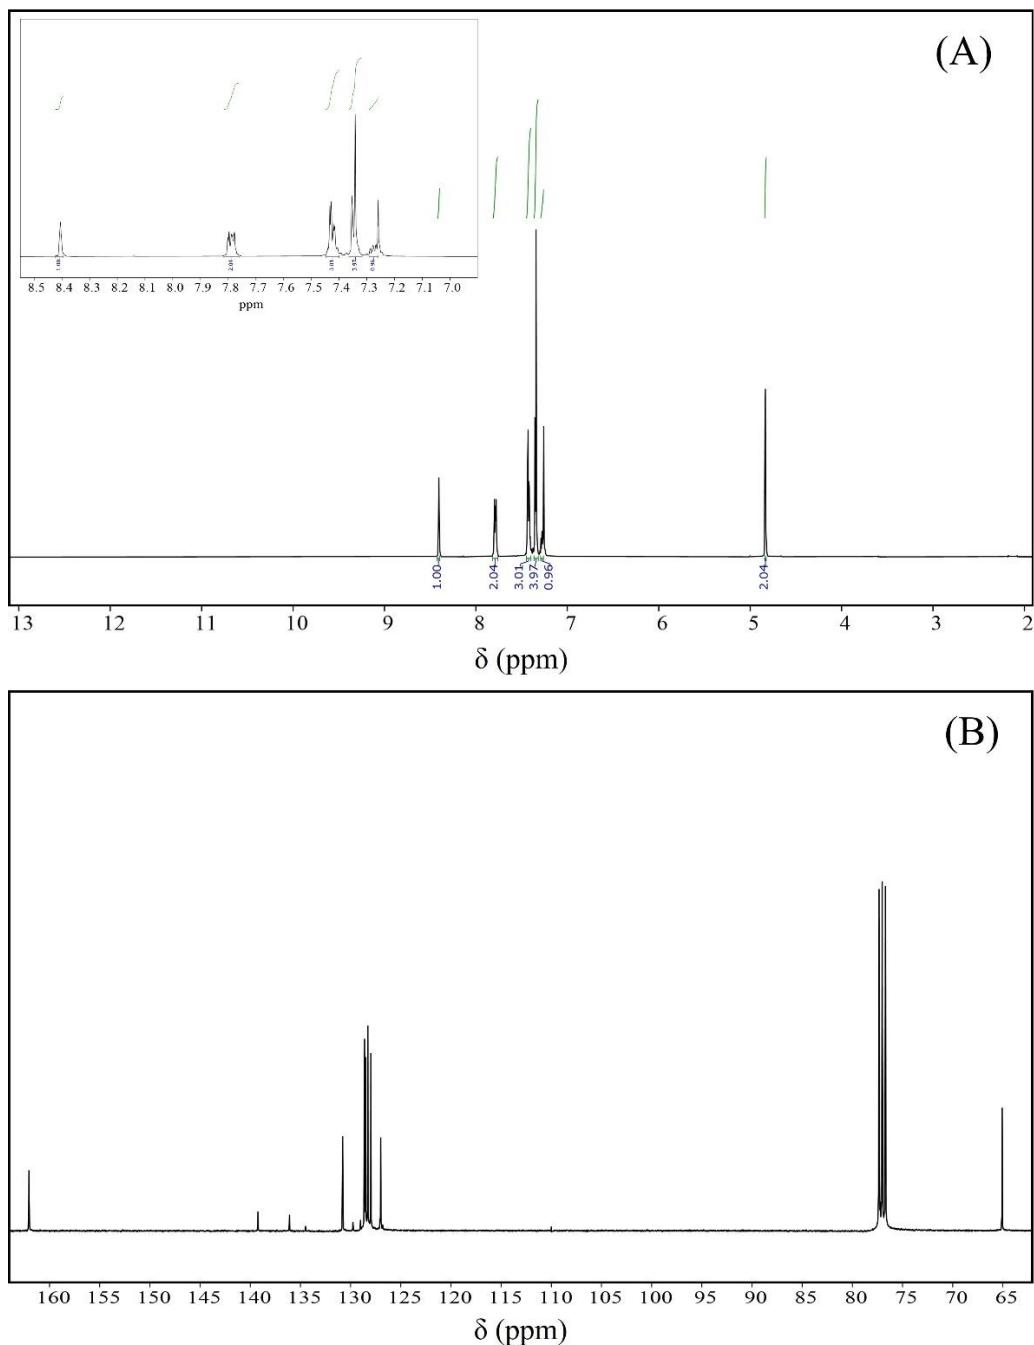

Figure S6. Spectra of *N*-benzylidenebenzylamine product using ¹H-NMR (A) and ¹³C-NMR (B).

Section IV: FTIR spectra

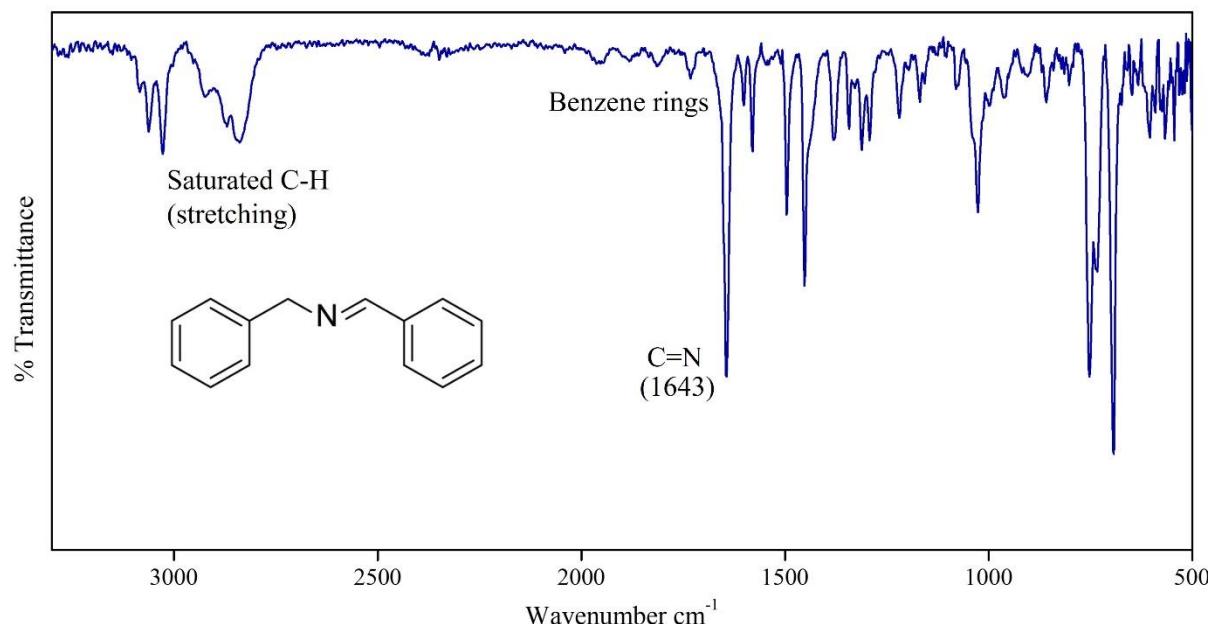

Figure S7. FTIR spectrum of *N*-benzylidenebenzylamine.
