The University of Tokyo, Tokyo,  
Japan

Deadline for manuscript  
submissions:

**closed (30 June 2023)**

### Message from the Guest Editors

Dear Colleagues,

This Special Issue is inspired by the broad interests in hypersonics/aerothermodynamics among the aerospace community. Despite a long history of research and development identified in numerous publications, multiple fundamental and engineering aspects are still underexplored and related knowledge not transferred to the technical implementation yet. Hypersonic research is challenging due to an extremely harsh environment associated with atmospheric flight at high speed. This Special Issue is targeting current fundamental research efforts related to hypersonics in a broad range of topics of emerging aerospace applications.

an Open Access Journal by MDPI

## Editor-in-Chief

## Message from the Editor-in-Chief

You are welcome to contribute a research article or a comprehensive review for consideration and publication in *Aerospace* (ISSN 2226-4310), an on-line, open access journal.

*Aerospace* adheres to rigorous peer-review as well as editorial processes and publishes high quality manuscripts that address both the fundamentals and applications of aeronautics and astronautics. Our goal is to enable rapid dissemination of high impact works to the scientific community.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within *Scopus*, *SCIE (Web of Science)*, *Inspec*, and other databases.

**Journal Rank:** JCR - Q1 (*Engineering, Aerospace*) / CiteScore - Q2 (*Aerospace Engineering*)
