**closed (20 August 2022)**

### **Message from the Guest Editors**

Dear Colleagues,

This thematic issue of Agriculture is published with the aim of summarizing international experiences in the field of agricultural insurance, risk management in agriculture, and rural sustainable development. Within the framework of the Special Issue, scientific research aimed at solving a set of problems and ensuring the development of agriculture will be presented, covering the following topics:

Conducting agricultural production in risky conditions, the use of risk reduction tools, and the development of agricultural insurance;

Development of scientific and practical potential in order to formulate proposals for the introduction of science-intensive technologies in agriculture;

Popularization of fundamental and applied research in the field of agriculture, animal science, zoology, agronomy, plant growing, and soil science;

Formation of recommendations aimed at improving computer models, information technology, engineering, innovation, and digital technologies in agriculture.

an Open Access Journal by MDPI

## Message from the Editor-in-Chief

*Agriculture* (ISSN 2077-0472) is an international, crossdisciplinary and scholarly open access journal on the science and technology of crop and animal production, and management of the natural resource base for agricultural production. *Agriculture* is published in an open access format – research articles, reviews and other contents are released on the internet immediately after acceptance. The scientific community and the public have unlimited and free access to the content as soon as it is published.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubAg, AGRIS, RePEc, and other databases.

**Journal Rank:** JCR - Q1 (*Agronomy*) / CiteScore - Q2 (*Plant Science*)
