submissions:

**closed (25 April 2023)**

### **Message from the Guest Editors**

Dear Colleagues,

The ability to ensure farm household wellbeing has been a longstanding policy objective for agricultural policies. Over the past few decades, farm production practices and the objectives of agricultural policies have changed to cope with the changing world. New technology, such as digital economy, has emerged into everyday life. On the other hand, different measures of farm household wellbeing, such as happiness and life satisfaction, have been proposed. Therefore, a better understanding of farm household wellbeing, food consumption, and agricultural policy is required.

In this SI, we welcome submissions that address advancements in our knowledge of food consumption, agricultural policy, and farm household wellbeing. Both theoretical and empirical papers with novel contributions are welcome. Manuscripts that accommodate new concepts in emerging economy and technology, such as digital economy, big data, net zero, etc., are particularly welcome. This type of manuscript will be prioritized in the opportunity to be published. Empirical studies need to include a solid statistical analysis. Papers with simple descriptive analyses are unlikely to be published.

an Open Access Journal by MDPI

## Message from the Editor-in-Chief

*Agriculture* (ISSN 2077-0472) is an international, crossdisciplinary and scholarly open access journal on the science and technology of crop and animal production, and management of the natural resource base for agricultural production. *Agriculture* is published in an open access format – research articles, reviews and other contents are released on the internet immediately after acceptance. The scientific community and the public have unlimited and free access to the content as soon as it is published.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubAg, AGRIS, RePEc, and other databases.

**Journal Rank:** JCR - Q1 (*Agronomy*) / CiteScore - Q2 (*Plant Science*)
