Message from the Guest Editor

Dear Colleagues,

Human food supply is strongly dependent on agronomy sciences and agriculture. Due to the coronavirus disease 2019 (COVID-19) crisis and the global lockdown measures (border closure, social restrictions/distancing, limited access to raw materials and agrochemicals, labour shortages), unprecedented disruptions in agri-food systems as well as food safety and security have occurred. The COVID-19 pandemic has strongly impacted even some of the most resilient agri-food sub-sectors, in both self-sufficient and strongly import-dependent economies. However, some agricultural businesses were able to react, demonstrating strong resilience and flexibility, by applying ICT and smart innovative solutions and by diversifying their production modalities and offer

For this Special Issue, manuscripts presenting novel research, reviews based on big-data (meta)-analyses, research opinions, and short communications—ranging from specific case studies to works at regional, (inter)national, and global level—that will contribute to the elucidation and better management of the COVID-19 pandemic crisis and its implications for agriculture, are welcome.

Message from the Editor-in-Chief

Agronomy draws together researchers from diverse areas of agricultural research with a common aim of enhancing agricultural productivity globally. The journal provides unlimited free access to all those interested in advancing agricultural science from both the research and general community. Papers are released immediately after acceptance through the internet. *Agronomy* is supported by our authors and their institutes through low article processing charges (APC) for accepted papers. We hope you will support the journal by becoming one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubAg, AGRIS, and other databases.

Journal Rank: JCR - Q1 (*Agronomy*) / CiteScore - Q1 (*Agronomy and Crop Science*)
