Deadline for manuscript  
submissions:

**closed (31 December 2022)**

### Message from the Guest Editor

Dear Colleagues,

This Special Issue on “Agricultural Water Conservation: Tools, Strategies, and Practices—Series II” aims to bring together a collection of recent cutting-edge research and advancements in agricultural water conservation. It intends to give a broad overview focusing on advanced irrigation technologies and scheduling, precision irrigation, deficit irrigation strategies, tailwater recovery systems, alternative low water use cropping systems, water conservation practices at farm and district scales, and water management best practices in improving water quality. Case studies and review papers which assess current water management challenges and offer opportunities and potential actions for the improvement of future agricultural water conservation are welcome.

## **Message from the Editor-in-Chief**

*Agronomy* draws together researchers from diverse areas of agricultural research with a common aim of enhancing agricultural productivity globally. The journal provides unlimited free access to all those interested in advancing agricultural science from both the research and general community. Papers are released immediately after acceptance through the internet. *Agronomy* is supported by our authors and their institutes through low article processing charges (APC) for accepted papers. We hope you will support the journal by becoming one of our authors.

## **Author Benefits**

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubAg, AGRIS, and other databases.

**Journal Rank:** JCR - Q1 (*Agronomy*) / CiteScore - Q1 (*Agronomy and Crop Science*)
