Engineering, University College
Dublin, Dublin, Ireland

Deadline for manuscript
submissions:

closed (1 January 2023)

Message from the Guest Editors

The scope of this Special Issue are innovations holding the potential to address the underlying information lacks and asymmetries in the food value chain that undermine sustainable and resilient transformation of our food systems.

Topics may include (but are not limited to):

- Integration of farm data, supply chain/market data, and other public/proprietary agricultural data in already existing or newly developed software, app, or other data science tools;
- Value chain analysis such as data-driven business models, data-driven supply chain/territorial analysis;
- Conceptualization of FMIS in new/unpublished domains, and critical reviews of FMIS not yet documented in scientific literature;
- Technological advances in the IoT, big data, and distributed ledger technology as tools for solving problems in the various domains of agriculture, forestry, and aquaculture;
- Approaches based on linked open data and ontologies in any of the food chain domain.

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Peter Langridge

School of Agriculture, Food and
Wine, University of Adelaide,
Urrbrae, SA 5064, Australia

Message from the Editor-in-Chief

Agronomy draws together researchers from diverse areas of agricultural research with a common aim of enhancing agricultural productivity globally. The journal provides unlimited free access to all those interested in advancing agricultural science from both the research and general community. Papers are released immediately after acceptance through the internet. *Agronomy* is supported by our authors and their institutes through low article processing charges (APC) for accepted papers. We hope you will support the journal by becoming one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubAg, AGRIS, and other databases.

Journal Rank: JCR - Q1 (*Agronomy*) / CiteScore - Q1 (*Agronomy and Crop Science*)
