

## Artificial Intelligence-Based Algorithms in Wireless Sensor Networks

Guest Editor:

**Prof. Dr. Chang Wu Yu**

Department of Computer Science  
and Information Engineering,  
Chung Hua University, Hsinchu  
City 300, Taiwan

Deadline for manuscript  
submissions:

**closed (31 December 2023)**

### Message from the Guest Editor

The main focus of this Special Issue strives for a deeper understanding of AI-based algorithms and theories which are developed to build up WSNs.

- wireless sensor networks
- AI-based algorithms including machine learning, genetic algorithms, clustering, decision trees, support vector machines, k-nearest neighbor, neural networks, fuzzy theory for wireless sensor networks
- AI-based data structures for wireless sensor networks
- AI-based protocols for wireless sensor networks
- AI-based mathematic models for wireless sensor networks
- AI-based optimization problems for wireless sensor networks
- AI-based performance evaluation for wireless sensor networks
- AI-based system design for wireless sensor networks
- AI-based simulation tools for wireless sensor networks

an Open Access Journal by MDPI

Germany

## Message from the Editor-in-Chief

Algorithms are the very core of Computer Science. The whole area has been considered from quite different perspectives, having led to the development of many sub-communities: Complexity theory (limitations), approximation or parameterized algorithms (types of problems), geometric algorithms (subject area), metaheuristics, algorithm engineering, medical imaging (applications), indicates the range of perspectives. Our journal welcomes submissions written from any of these perspectives, so that it may become a forum for exchange of ideas between the corresponding scientific subcommunities.

## Author Benefits

**Open Access** : free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility**: indexed within Scopus, ESCI (Web of Science), Ei Compendex, and other databases.

**Journal Rank**: CiteScore - Q2 (*Numerical Analysis*)
