Message from the Guest Editors

Dear Colleagues,

Ruminant production systems and, more specifically, dairy production have been challenged to produce more milk with fewer natural resources, while also minimizing potential negative impacts on the environment. To achieve such a goal, improvements on nutrition, health, and genetics are required and must take place together. Hence, the objective of this Special Issue is to bring to light recent advances into any of these aspects, as well as nutrition and how the productivity of dairy operations has been improving over the years with the use of precise nutrition and feeding. In this Special Issue, original research articles and reviews are welcome.

We look forward to receiving your contributions.

Dr. Bruno Cappellozza

Message from the Editor-in-Chief

Animals is an on-line open access journal that was first published in 2011. *Animals* adheres to rigorous peerreview and editorial processes and publishes only high quality manuscripts that address important issues in the many varied disciplines that involve animals, with a focus on animal science, animal welfare and animal ethics. *Animals* is covered in the Science Citation Index Expanded (SCIE) in Web of Science, with the latest Impact Factor: 3.0 (2022, ranks 12 /62 (Q1) in ‘Agriculture, Dairy & Animal Science’; 13/143 (Q1) in ‘Veterinary Sciences’), 5-Year Impact Factor: 3.2.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, Animal Science Database, CAB Abstracts, and other databases.

Journal Rank: JCR - Q1 (*Veterinary Sciences*) / CiteScore - Q1 (*General Veterinary*)
