Message from the Guest Editor

Dear Colleagues,

Mobility issues are a well known problem in veterinary medicine. Detecting these problems, finding a proper solution for them and getting these animals back to work can be very challenging, especially in the world of canine and equine athletics.

The scope of this Special Issue is to publish advances in Sports Medicine and Rehabilitation research, both in the Small Animal, as in the Equine field. This includes novel techniques for lameness detection on the one hand and the results of specific rehabilitation schemes and techniques on the other.

Specific tests and therapies developed for professional sports often find their way to the general population as well, but this goes both ways! So if any of you feel that you have something to share that might revolutionize the diagnosis and/or treatment of mobility problems, this is the Special Issue to publish it in.

Dr. Yves Samoy

Message from the Editor-in-Chief

Animals is an on-line open access journal that was first published in 2011. *Animals* adheres to rigorous peerreview and editorial processes and publishes only high quality manuscripts that address important issues in the many varied disciplines that involve animals, with a focus on animal science, animal welfare and animal ethics. *Animals* is covered in the Science Citation Index Expanded (SCIE) in Web of Science, with the latest Impact Factor: 3.0 (2022, ranks 12 /62 (Q1) in ‘Agriculture, Dairy & Animal Science’; 13/143 (Q1) in ‘Veterinary Sciences’), 5-Year Impact Factor: 3.2.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, Animal Science Database, CAB Abstracts, and other databases.

Journal Rank: JCR - Q1 (*Veterinary Sciences*) / CiteScore - Q1 (*General Veterinary*)
