Message from the Guest Editors

Dear Colleagues,

Increasingly, there is an emphasis on taking a joined-up approach to improve animal welfare, human well-being, and environmental sustainability, termed One Welfare. An inter-disciplinary approach is required to establish methods of improving equine welfare and the sustainability of equine populations while reducing the deleterious impact of equines on the environment. The role of the equine in human society is diverse, ranging from elite performance animals that partner human athletes in sporting activities, through animals employed in human therapeutic applications, to working animals required for human survival. The management, training, and health of elite equine athletes are increasingly under public scrutiny. Less visible but potentially of greater concern is the large numbers of unwanted and/or neglected equines that are surplus to human requirements. Contributions to this Special Issue are welcome from research areas that address these topics directly or provide complementary evidence that can be applied to increase the sustainability and welfare of equines in free-ranging or domestic situations, in whatever role they occupy.

Message from the Editor-in-Chief

Animals is an on-line open access journal that was first published in 2011. *Animals* adheres to rigorous peerreview and editorial processes and publishes only high quality manuscripts that address important issues in the many varied disciplines that involve animals, with a focus on animal science, animal welfare and animal ethics. *Animals* is covered in the Science Citation Index Expanded (SCIE) in Web of Science, with the latest Impact Factor: 3.0 (2022, ranks 12 /62 (Q1) in ‘Agriculture, Dairy & Animal Science’; 13/143 (Q1) in ‘Veterinary Sciences’), 5-Year Impact Factor: 3.2.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, Animal Science Database, CAB Abstracts, and other databases.

Journal Rank: JCR - Q1 (*Veterinary Sciences*) / CiteScore - Q1 (*General Veterinary*)
