Message from the Guest Editors

Dear Colleagues,

Deslorelin is used in several fields of small animal medicine with different indications: 1. in male dogs, medical contraception, delay of puberty, part of medical protocols to treat benign prostatic hyperplasia; 2. in male dogs and tomcats, control of testosterone-linked unwanted behaviors, medical castration; 3. in bitches, estrous induction, delay of puberty and treatment of post-spaying urinary incontinence and spay-induced coat changes; 4. treatment of some cutaneous disorders in dogs; 5. estrous suppression and delay of puberty in queens; 6. contraception and treatment of adrenal disorders in ferrets; 7. management of reproduction in wild carnivores such as lions and cheetahs; 8. control of reproduction, hormonal-related diseases and behaviors in exotic species, such as avian species, small mammals and reptiles.

High-quality original research papers and reviews concerning the wide variety of applications and uses of deslorelin in dogs, cats and exotic species are very welcome in this Special Issue that aims to share recent findings related to animal reproduction as well as any other branch of veterinary medicine.

Message from the Editor-in-Chief

Animals is an on-line open access journal that was first published in 2011. *Animals* adheres to rigorous peerreview and editorial processes and publishes only high quality manuscripts that address important issues in the many varied disciplines that involve animals, with a focus on animal science, animal welfare and animal ethics. *Animals* is covered in the Science Citation Index Expanded (SCIE) in Web of Science, with the latest Impact Factor: 3.0 (2022, ranks 12 /62 (Q1) in ‘Agriculture, Dairy & Animal Science’; 13/143 (Q1) in ‘Veterinary Sciences’), 5-Year Impact Factor: 3.2.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, Animal Science Database, CAB Abstracts, and other databases.

Journal Rank: JCR - Q1 (*Veterinary Sciences*) / CiteScore - Q1 (*General Veterinary*)
