Message from the Guest Editors

Dear Colleagues,

Applied Sciences is going to touch a remarkable milestone by publishing its 10th volume, and in celebration of this special occasion, we have taken the initiative to launch a Special Issue from *Energy* called "10th Anniversary of *Applied Sciences*: Invited Papers in Energy section". We would like to invite you to contribute a comprehensive review article on contemporary energy topics or an original research paper, for peer-review and possible publication. Topics include but are not limited to renewable energy, microgrids, IoT enabled inverters, TSO–DSO interactions, grid interfacing challenges, vehicle-to-grid, power electronics in energy harvesting, etc.

On this occasion, we would like to thank our all Editorial Board Members, Managing Editors, Reviewers, and Authors for their great contributions and continuous support. Please help us celebrate our 10th anniversary and submit your review article to the Anniversary Edition.

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Engineering, Multidisciplinary*) / CiteScore - Q1 (*General Engineering*)
