Message from the Guest Editor

Dear Colleagues,

Urban information systems provide information that enables cities to carry out efficient administration and decision-making for facilities, urban planning, the environment, disaster prevention, water supply, transit, etc.

Urban governments may more effectively address long-term strategic planning and management challenges by applying urban information systems. Considering the importance of this topic, we propose a Special Issue of Applied Sciences entitled "New Insights into Real-Time Urban Information Systems".

This Special Issue welcomes original research articles and reviews that preferably focus on (but are not limited to) the following topics:

- Urban information systems (UIS);
- Urban management information system (UMIS);
- Intelligent management information systems;
- Geographic information system (GIS);
- AI, IoT, and Blockchain for smart cities;
- Data-driven smart cities;
- 5G and 6G for smart urban management;
- Urban ICT infrastructure;
- UIS for local governments;
- Data-driven smart ecological urbanism;
- Urban remote sensing.

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica,
Politecnico di Milano, Piazza L.
da Vinci 32, 20133 Milano, Italy

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Engineering, Multidisciplinary*) / CiteScore - Q1 (*General Engineering*)
