Italy

Deadline for manuscript
submissions:

closed (20 April 2024)

Message from the Guest Editor

Geomorphology is an interdisciplinary field that integrates geology, hydrology, climatology, soil science, environmental science, and other disciplines. Geomorphological mapping is a key technique for understanding geomorphological features, landscape evolution, natural hazards, and geological risks. Hence, geomorphological mapping and assessment play an important role in urban and territorial planning.

This Special Issue is intended to collect articles on progress and challenges in geomorphological mapping and assessment. The prospective authors are encouraged to submit articles with respect to, but not limited to, the following topics:

- New technologies in geomorphological mapping;
- Geological digital mapping;
- Geomorphological analysis and modern technologies;
- Geomorphological and structural assessment;
- Remote sensing and GIS in geomorphological mapping;
- Geomorphology and its application to natural risks.

Keywords: geomorphological mapping; geomorphology; geomorphological analysis; geomorphological assessment; geological disasters; digital mapping; susceptibility mapping.

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo

Dipartimento di Fisica,
Politecnico di Milano, Piazza L.
da Vinci 32, 20133 Milano, Italy

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Engineering, Multidisciplinary*) / CiteScore - Q1 (*General Engineering*)
