Machine Learning for Graph Pattern Mining and Its Applications

Guest Editors:

Prof. Dr. Xiaoke Ma
School of Computer Science and Technology, Xidian University, Xi'an 710071, China

Dr. Jingjing Deng
The Palatine Centre, Durham University, Durham DH1 3LE, UK

Deadline for manuscript submissions:
closed (30 November 2023)

Message from the Guest Editors

This Special Issue aims to collect high-quality review papers from the fields of graph mining research. We encourage researchers from various fields within the journal's scope to contribute review papers highlighting the latest developments in their research field, or to invite relevant experts and colleagues to do so. Topics of interest for this Special Issue include, but are not limited to:

- Graph representation learning
- Graph clustering
- Graph classification
- Temporal networks
- Multi-layer networks
- Biological network analysis
- Link prediction
- Applications of graphs

Special Issue

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica,
Politecnico di Milano, Piazza L.
da Vinci 32, 20133 Milano, Italy

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus, SCIE (Web of Science), Inspec, CAPlus / SciFinder, and other databases.
Journal Rank: JCR - Q2 (*Engineering, Multidisciplinary*) / CiteScore - Q1 (*General Engineering*)
