Stellenbosch 7600, South Africa

Deadline for manuscript
submissions:

20 August 2024

Message from the Guest Editors

Dear Colleagues,

This Special Issue aims to collect high-quality original research papers and reviews in the field of Swarm Intelligence and Evolutionary Computation. We encourage researchers to contribute with their latest developments, or to invite relevant experts and colleagues to do so. New and improved versions of well-sedimented algorithms are welcome, as well as applications to real-world problems. The authors should provide a comprehensive and scientifically sound overview of the most recent research and methodological approaches. Both experimental and methodological contributions are welcome.

In this regard, this Special Issue aims to encourage both academic and industrial researchers to present their latest findings concerning the previously cited aspects, which can significantly contribute to the achievement of new methods to develop algorithms, processes and devices.

Prof. Dr. Hugo Valadares Siqueira

Prof. Dr. Fernando Buarque

Prof. Dr. Andries P. Engelbrecht

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Engineering, Multidisciplinary*) / CiteScore - Q1 (*General Engineering*)
