Deadline for manuscript
submissions:

closed (28 February 2022)

Message from the Guest Editor

The mission of this Special Issue, “Correlation of Environmental Variables with Different Types of Stroke”, is to search for pathogenetic and molecular mechanisms of various environmental factors in the development of different types of stroke. The topic should highlight advances and recent discoveries in all fields of science related to the development of different types of strokes, as well as the links with other chronic diseases such as cancer, chronic respiratory diseases, infectious diseases, and autoimmune diseases, using multilevel approaches.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Engineering, Multidisciplinary*) / CiteScore - Q1 (*General Engineering*)
