

Cyber Security and Software Engineering

Guest Editors:

Dr. Young Lee

The Department of
Computational, Engineering, and
Mathematical Sciences, College
of Arts and Sciences, Texas A&M
University-San Antonio, 71007,
San Antonio, TX 78224, USA

Dr. Jeong Yang

The Department of
Computational, Engineering, and
Mathematical Sciences, College
of Arts and Sciences, Texas A&M
University-San Antonio, 71007,
San Antonio, TX 78224, USA

Prof. Dr. Luis Javier Garcia Villalba

Group of Analysis, Security and
Systems (GASS), Universidad
Complutense de Madrid (UCM),
28040 Madrid, Spain

Deadline for manuscript
submissions:

20 September 2024

Message from the Guest Editors

Cybersecurity and privacy are pivotal in the digital world. These concerns extend beyond software developers and electronics manufacturers to everyday digital device users. Since the advent of software applications, particularly those handling private and sensitive data, security attacks have become inevitable. In this Special Issue, we concentrate on developing secure software applications in various environments and preventing malicious activities in cyber computer systems.

We warmly invite all dedicated researchers, professionals, and experts in the field to share their invaluable insights, groundbreaking discoveries, and forward-thinking perspectives. Submissions may address topics including:

- cybersecurity
- secure software development
- mobile application security
- cloud security
- security vulnerabilities
- privacy and data security
- artificial intelligence and machine learning in cyber security
- IoT security
- data protection
- internet safety
- encryption
- cyber threats
- intrusion detection

Special Issue

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo

Dipartimento di Fisica,
Politecnico di Milano, Piazza L.
da Vinci 32, 20133 Milano, Italy

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Engineering, Multidisciplinary*) / CiteScore - Q1 (*General Engineering*)
