

Applications of Wearable Sensors and Image Processing in Assistive and Rehabilitative Technologies

Guest Editors:

Prof. Dr. Hariton-Nicolae Costin

Institute of Computer Science of
the Romanian Academy, Iasi
Branch, 700481 Iasi, Romania

Dr. Cristian Rotariu

Faculty of Medical
Bioengineering, Grigore T. Popa
University of Medicine and
Pharmacy of Iasi, 9-13
Kogalniceanu str., 700454 Iasi,
Romania

Dr. Gladiola Petroiu

Faculty of Medical
Bioengineering, Grigore T. Popa
University of Medicine and
Pharmacy of Iasi, 9-13
Kogalniceanu str., 700454 Iasi,
Romania

Deadline for manuscript
submissions:

30 August 2024

mdpi.com/si/172653

Message from the Guest Editors

This Special Issue accepts submissions of high-quality research papers and review articles on the topic of wearable sensors and image processing applications for assistive technologies used for rehabilitation.

Potential topics of interest include, but are not limited to:

- Wearable sensors and systems;
- Embedded sensor systems in wearable assistive devices;
- Intelligent sensors and systems for healthcare and assistive technology;
- Medical image processing in assistive and rehabilitative technologies;
- Machine learning algorithms applied in rehabilitation and assistive technology;
- Rehabilitative and assistive technologies;
- Data security in wearable sensing devices;
- M-health and p-health systems;
- Cloud computing with medical imaging, image processing, and analysis;
- IoT-based systems and cloud computing in IoT-based systems;
- Big data handling in IoT-based systems;
- Virtual and augmented reality for medical rehabilitation and assistive technologies;
- Wearable sensors for accessible and adaptive technologies: visual, motor/mobility, auditory, seizures, and learning/cognitive.

Special Issue

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo

Dipartimento di Fisica,
Politecnico di Milano, Piazza L.
da Vinci 32, 20133 Milano, Italy

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Engineering, Multidisciplinary*) / CiteScore - Q1 (*General Engineering*)
