Message from the Guest Editors

This Special Issue on "Feature Review Papers in Section Computing and Artificial Intelligence" will collect review papers in all areas of interest covered by "Computing and Artificial Intelligence" (https://www.mdpi.com/journal/applsci/sections/computing_arti

We welcome multidisciplinary research in the following fields:

- Database, information systems, and security;
- Multi-agent systems and pervasive computing;
- Audio, speech, and music processing;
- Computer vision, machine learning, and pattern recognition.

Manuscripts on computing and artificial intelligence are all welcome.

We expect these papers to be widely read and highly influential within the field. We also plan for all papers included in this Special Issue to be published in the form of a print edition book and widely promoted within the scientific community.

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus, SCIE (Web of Science), Inspec, CAPlus / SciFinder, and other databases.
Journal Rank: JCR - Q2 (*Engineering, Multidisciplinary*) / CiteScore - Q1 (*General Engineering*)
