Message from the Guest Editors

This Special Issue will publish high quality original research papers dealing with:

- Material preparation procedures;
- Material characterization methods and procedures;
- Material recyclability and life cycle assessment;
- Material application processes;
- Surface properties and structure;
- Enhancing surface functionality;
- Assessment of products made via additive manufacturing;
- Additive manufacturing processes.

Deadline for manuscript
submissions:

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Engineering, Multidisciplinary*) / CiteScore - Q1 (*General Engineering*)
