Deadline for manuscript
submissions:

closed (20 May 2022)

Message from the Guest Editors

Since its adoption in September 2015, the 2030 Agenda has laid the foundations for model of shared prosperity for a sustainable world in which all people can lead a peaceful and prosperous life freely and on a healthy planet. There is a less than a decade until we reach 2030, in the midst of a difficult pandemic that is laying bare the deep inequalities affecting not only our health, but also our quality of life and the economy of the countries, among other issues. It will depend on us whether this situation leads us to the point of no return or, on the contrary, whether it represents an incentive to achieve the Sustainable Development Goals (SDGs) by the established date.

- Sustainable Development Goals (SDGs) implementation
- 2030 Agenda

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo

Dipartimento di Fisica,
Politecnico di Milano, Piazza L.
da Vinci 32, 20133 Milano, Italy

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Engineering, Multidisciplinary*) / CiteScore - Q1 (*General Engineering*)
