

Advances in Optical and Optoelectronic Devices and Systems

Guest Editors:

Dr. Xudong Li

National Key Laboratory of Laser
Spatial Information, Harbin
Institute of Technology, Harbin,
China

Prof. Dr. Qiang Liu

Department of Precision
Instrument, Tsinghua University,
Beijing 100084, China

Prof. Dr. Zhengxiang Shen

School of Physics and
Engineering, Tongji University,
Shanghai 200092, China

Deadline for manuscript
submissions:

closed (31 October 2023)

Message from the Guest Editors

Dear Colleagues,

In this Special Issue, we invite submissions exploring cutting-edge research and recent advances in optoelectronic devices and systems, ranging from laser materials to laser sources, novel optoelectronic devices and applications. Potential topics include, but are not limited to, the following:

- Laser materials and optical films:

New laser materials, nonlinear crystals, optical and functional films, etc.

- Laser devices and laser technology:

Solid-state, liquid and gas lasers; fiber lasers; semiconductor lasers; laser technology and devices; infrared, visible and ultraviolet lasers; CW, short-pulse and ultrashort-pulse lasers; ultrafast lasers; high-energy and average-power lasers; etc.

- Novel optoelectronic devices:

Optoelectronic sensors; optoelectronic detectors; electro-optic modulators; acousto-optic modulators; saturable absorbers; etc.

- Applications of optoelectronic devices and systems:

New optical devices, instruments, and technologies; laser detection; laser remote sensing; laser communication; space lasers; underwater lasers; new systems and concepts in laser detection; etc.

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo

Dipartimento di Fisica,
Politecnico di Milano, Piazza L.
da Vinci 32, 20133 Milano, Italy

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Engineering, Multidisciplinary*) / CiteScore - Q1 (*General Engineering*)
