Message from the Guest Editors

Dear Colleagues,

This Special Issue will publish original articles containing new organic molecules, organ-minerals with biological activity. In this Special Issue, we invite submissions of the Molecular Modeling studies; interactions with enzyme systems; with DNA; etc. The chemical part must report the synthesized molecules, the methods, the chemical-physical studies, the characterizations, synthetic schemes.

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus, SCIE (Web of Science), Inspec, CAPlus / SciFinder, and other databases.
Journal Rank: JCR - Q2 (*Engineering, Multidisciplinary*) / CiteScore - Q1 (*General Engineering*)
