# Extracellular Chaperones and Related miRNA as Diagnostic Tools of Chronic Diseases

Guest Editors:	Message from the Guest Editors
Prof. Dr. Francesco Cappello	Dear Colleagues,
Dr. Magdalena Gorska- Ponikowska	Chaperones and related miRNAs are actively involved in crucial biological processes such as cell differentiation,
Prof. Dr. Claudia Marino	tissue homeostasis, and organ remodeling throughout all the life span of an individual.
Dr. Francesca Rappa	
Deadline for manuscript submissions: closed (28 February 2021)	The aim of this Special Issue is to collect breakthrough papers focusing on data supporting that extracellular chaperones and their related miRNA (including either those in their soluble form or those hosted in extracellular vesicles) may represent innovative diagnostics tool in many chronic human pathologies. We will particularly consider papers that—other than presenting solid data on the aforementioned aim—also discuss original data about mechanistic roles of these molecules inside and outside cells.
	Taken all together, the accepted papers will form a Special Issue that would represent a landmark in the scientific

# **Editor-in-Chief**

### Message from the Editor-in-Chief

**Prof. Dr. Giulio Nicola Cerullo** Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32, 20133 Milano, Italy As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

# **Author Benefits**

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus, SCIE (Web of Science), Inspec, CAPlus / SciFinder, and other databases.
Journal Rank: JCR - Q2 (*Engineering, Multidisciplinary*) / CiteScore - Q1 (*General Engineering*)
