

Nanomaterials in Medical Engineering

Guest Editor:

Dr. Morgan Hamon

School of Medicine, University of
California, Los Angeles, LA 90007,
USA

Deadline for manuscript
submissions:

closed (10 December 2021)

Message from the Guest Editor

This Special Issue intends to gather original scientific peer-reviewed articles and review articles featuring important and recent developments or achievements in nanomaterial research, with an emphasis on medical applications and potential applications. Authors who are well-known experts in their domain are invited to submit their contribution at any time until the end of June 2021. Papers can cover either the experimental or theoretical aspect, or both aspects, of nanomaterials (organic, inorganic, or hybrid) in medical applications, including diagnosis, drug delivery, tissue engineering, regenerative medicine, prostheses, and implants.

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo

Dipartimento di Fisica,
Politecnico di Milano, Piazza L.
da Vinci 32, 20133 Milano, Italy

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Engineering, Multidisciplinary*) / CiteScore - Q1 (*General Engineering*)
