

## 10th Anniversary of Atmosphere: Climatology and Meteorology

Guest Editors:

**Prof. Dr. Anthony R. Lupo**

**Dr. Alexander V. Chernokulsky**

**Dr. Luis Gimeno**

**Dr. Jiafu Mao**

**Prof. Dr. Andreas Matzarakis**

**Dr. Richard Müller**

**Dr. Chris G. Tzanis**

**Prof. Dr. Chuixiang Yi**

Deadline for manuscript  
submissions:

**closed (31 December 2019)**

### Message from the Guest Editors

In order to celebrate the 10th anniversary, we are organizing Special Issues for each of the five key areas in order to acknowledge this milestone. This particular Special Issue will accept submissions for possible publication in the Climatology and Meteorology section. Climatology and Meteorology is the largest sub-discipline, with more than 400 peer-reviewed articles published. All scholars in the community are invited to submit original articles, reviews, research notes, and short communications in the areas covered by the keywords describing Climatology and Meteorology, which can be found at the following link: <https://www.mdpi.com/journal/atmosphere/sections/climatology>. This Special Issue will be devoted to topics that remain at the heart of the weather and climate inquiry, including cross-disciplinary studies devoted to basic or applied research. Please encourage interested colleagues to submit manuscripts. In particular, review articles on new and timely topics are welcome.

an Open Access Journal by MDPI

## Message from the Editor-in-Chief

Continued developments in instrumentation and modeling have driven atmospheric science to become increasingly more complex with a deeper understanding of concepts, mechanisms, and interactions. This is the field that innovation built and it has led to a better appreciation for the complexity with atmosphere. Human life is intertwined in this complexity as we strive to better understand our atmosphere. Climate change is constantly stretching the limits of our thinking and forcing new ideas and concepts to be played out. Welcome to the Anthropocene!

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, GeoRef, Inspec, CAPlus / SciFinder, Astrophysics Data System, and other databases.

**Journal Rank:** CiteScore - Q2 (*Environmental Science (miscellaneous)*)
