submissions:

31 May 2024

Message from the Guest Editor

Dear Colleagues,

We invite you to contribute to this Special Issue on “Stochastic Processes and Stochastic Differential Equations”. The aim of this Special Issue is to publish high-quality papers on stochastic processes and their applications. We invite articles dealing with both discrete-time and continuous-time stochastic processes. Applications of stochastic processes can be related to financial mathematics, actuarial science, etc.

In this Special Issue, original research articles and reviews are welcome. Research areas may include (but are not limited to) the following:

- Stochastic Processes;
- Markov Processes;
- Diffusion Processes;
- Queueing Theory;
- Queues;
- Financial Mathematics.

Prof. Dr. Nikos Halidias
