IMPACT FACTOR 2.0

Recent Advances in Stochastic Differential Equations

Guest Editors:

Prof. Dr. Svetlin G. Georgiev
1. Faculty of Mathematics and Informatics, Sorbonne University, 75252 Paris, France
2. Department of Differential Equations, Sofia University, 1164 Sofia, Bulgaria

Dr. Khaled Zennir
Department of Mathematics, College of Sciences and Arts, Qassim University, Ar-Rass 51921, Saudi Arabia

Deadline for manuscript submissions:
closed (20 February 2023)

Message from the Guest Editors

The Special Issue "Advances in Stochastic Differential Equations" is aimed at providing a platform for the publication of relevant research articles covering all aspects of stochastic differential equations, stochastic partial differential equations, the super-symmetric theory of stochastic differential equations, applications in disciplines such as as chaos, turbulence, self-organized criticality, probability theory as well as numerical methods for use in the solving of stochastic differential equations and stochastic partial differential equations.
