### Message from the Guest Editors

Sports injuries have become increasingly common as professional sports are popular. A range of innovative biomedical devices have been developed to treat sports-related injuries through surgical or non-surgical treatments. Before the clinical application of such devices, thorough research regarding the etiology, pathophysiology, progression, and effect of related sports injuries and their treatment results should be investigated. Hence, this Special Issue of **“Advanced Therapies for Sports Injuries on Bioengineering”** provides a pivot role not only in understanding the knowledge regarding such sports injuries but also in their treatments.

Deadline for manuscript  
submissions:

**closed (24 February 2024)**

an Open Access Journal by MDPI

## Editor-in-Chief

### **Prof. Dr. Anthony Guiseppi-Elie**

Department of Biomedical  
Engineering, Texas A&M  
University, College Station, TX

## Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Bioengineering* (ISSN 2306-5354). *Bioengineering* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. *Bioengineering* provides an advanced forum for the science and technology of bioengineering. We would be pleased to welcome you as one of our authors.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [CAPlus / SciFinder](#), [Inspec](#), and [other databases](#).

**Journal Rank:** JCR - Q2 (*Engineering, Biomedical*)
