Message from the Guest Editors

Dear Colleagues,

To provide a multidisciplinary view for the identification, extraction, and engineered application of bioactive compounds, this Special Issue on “Bioactive formulations in Agri-Food-Pharma: Source and Applications, Volume III” aims to compile recent developments in the production of natural compounds from various bioresources, and their formulations as bioactives. In addition, this SI will also cover in-depth engineered approaches for enhanced biological properties and potential industrial applications of new bioactive formulations through novel strategies aiming at the identification of novel compounds and bioprocess tools to improve the quantity and quality of such products. Increasing knowledge on the bioactive formulations related to their regulation at genomic and molecular levels will lead to a reconsideration of health goals.

This Special Issue will publish articles on recent trends, applications, advancements, and engineering approaches for the biosynthesis of natural products, with particular emphasis on bioactive formulations for applications in agri-food pharma.

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Bioengineering* (ISSN 2306-5354). *Bioengineering* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. *Bioengineering* provides an advanced forum for the science and technology of bioengineering. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [CAPlus / SciFinder](#), [Inspec](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Engineering, Biomedical*)
