2. Division of Locomotor System and Rheumatology Prevention, Department of Internal Medicine and Haematology, Semmelweis University, Budapest, Hungary

Message from the Guest Editors

Rheumatic diseases encompass a diverse range of autoimmune disorders that predominantly impact the joints, bones, muscles, and connective tissues. These chronic conditions, including rheumatoid arthritis, systemic lupus erythematosus, Sjögren's syndrome, and ankylosing spondylitis, lead to immune system dysregulation. Various types of rheumatic diseases exhibit a wide spectrum of clinical manifestations and intricate pathogeneses.

The objective of this Special Issue is to encourage researchers to disseminate their latest research findings and provide a comprehensive overview of recent advancements in the clinical and pathological aspects of rheumatic diseases. We cordially invite investigators to contribute their original research and review articles focusing on the pathogenesis and therapeutics of autoimmune and inflammatory Rheumatic Diseases.

Deadline for manuscript submissions:

31 March 2024

Message from the Editor-in-Chief

Biomedicines (ISSN 2227-9059) is an open access journal devoted to all aspects of research on human health and disease, the discovery and characterization of new therapeutic targets, therapeutic strategies, and research of naturally driven biomedicines, pharmaceuticals, and biopharmaceutical products. Topics include pathogenesis mechanisms of diseases, translational medical research, biomaterial in biomedical research, natural bioactive molecules, biologics, vaccines, gene therapies, cell-based therapies, targeted specific antibodies, recombinant therapeutic proteins, nanobiotechnology driven products, targeted therapy, bioimaging, biosensors, biomarkers, and biosimilars. The journal is open for publication of studies conducted at the basic science and preclinical research levels. We invite you to consider submitting your work to *Biomedicines*, be it original research, review articles, or developing Special Issues of current key topics.

Author Benefits

Open Access:— free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [CAPus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q1 (*Pharmacology & Pharmacy*) / CiteScore - Q2 (*Medicine (miscellaneous)*)
