Message from the Guest Editor

Dear Colleagues,

Advanced research in cell biology and medicine has revealed the multiple roles of mitochondria beyond energy production that are crucial for cell survival. Mitochondria are acknowledged as the core organelles associated with cellular homeostasis, and their dysfunction results in a wide range of mitochondria-associated disorders/diseases in humans.

This Special Issue of *Biomedicines* on "Mitochondrial Function in Biomedicines" will involve all aspects of better understanding mitochondrial targeted biomedicine. We are pleased to invite authors to submit reviews and original research articles in this exciting field to discuss their contributions and provide critical views on current mitochondrial research in modern biomedicines for therapeutic aims.

Message from the Editor-in-Chief

Biomedicines (ISSN 2227-9059) is an open access journal devoted to all aspects of research on human health and disease, the discovery and characterization of new therapeutic targets, therapeutic strategies, and research of naturally driven biomedicines, pharmaceuticals, and biopharmaceutical products. Topics include pathogenesis mechanisms of diseases, translational medical research, biomaterial in biomedical research, natural bioactive molecules, biologics, vaccines, gene therapies, cell-based therapies, targeted specific antibodies, recombinant therapeutic proteins, nanobiotechnology driven products, targeted therapy, bioimaging, biosensors, biomarkers, and biosimilars. The journal is open for publication of studies conducted at the basic science and preclinical research levels. We invite you to consider submitting your work to *Biomedicines*, be it original research, review articles, or developing Special Issues of current key topics.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [CAPUS / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q1 (*Pharmacology & Pharmacy*) / CiteScore - Q2 (*Medicine (miscellaneous)*)
