Deadline for manuscript
submissions:

31 July 2024

Message from the Guest Editors

Dear Colleagues,

The drug discovery industry has become such a competitive market that it is constantly challenged to acquire superior drug discovery technologies. Breakthrough forms of biosensors and nanotechnology offer innovative solutions and provide researchers with greater analytical power and higher data quality.

This Special Issue aims to describe scientific works on biosensors and the latest nanotechnology employed for drug discovery and analysis. Authors are welcome to submit both original articles and reviews.

Dr. Venkatesan Perumal

Dr. Ajay Kumar Yagati

Message from the Editor-in-Chief

Biomedicines (ISSN 2227-9059) is an open access journal devoted to all aspects of research on human health and disease, the discovery and characterization of new therapeutic targets, therapeutic strategies, and research of naturally driven biomedicines, pharmaceuticals, and biopharmaceutical products. Topics include pathogenesis mechanisms of diseases, translational medical research, biomaterial in biomedical research, natural bioactive molecules, biologics, vaccines, gene therapies, cell-based therapies, targeted specific antibodies, recombinant therapeutic proteins, nanobiotechnology driven products, targeted therapy, bioimaging, biosensors, biomarkers, and biosimilars. The journal is open for publication of studies conducted at the basic science and preclinical research levels. We invite you to consider submitting your work to *Biomedicines*, be it original research, review articles, or developing Special Issues of current key topics.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [CAPus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q1 (*Pharmacology & Pharmacy*) / CiteScore - Q2 (*Medicine (miscellaneous)*)
