submissions:

closed (15 October 2023)

Message from the Guest Editor

Dear Colleagues,

Cardiovascular diseases (CVD) are the most common cause of death worldwide, and despite undeniable progress in prevention and therapeutics protocols, they still remain a relevant clinical issue. This Special Issue will highlight the latest findings in the field of Cardiovascular Diseases involving the pathogenesis and mechanisms of development of CVD, with particular emphasis on endothelial disorders and the potential role of oxidative stress. Studies investigating novel invasive and non-invasive diagnostic tools are also welcomed. The topic of this Special Issue will additionally expand on novel treatment methods in CVD (involving CAD especially high-risk interventions (CHIP), PAD, structural interventions in Heart Diseases, and cardio-renal interventions). Recently, advances in the field of Cardiovascular Diseases have been inextricably linked with the use of bioresorbables; therefore, articles relating to this topic are also highly recommended as a part of this Special Issue. Authors are invited to contribute reviews, original papers.

We look forward to receiving your contributions.

Dr. Adrian Włodarczak

Message from the Editor-in-Chief

Biomedicines (ISSN 2227-9059) is an open access journal devoted to all aspects of research on human health and disease, the discovery and characterization of new therapeutic targets, therapeutic strategies, and research of naturally driven biomedicines, pharmaceuticals, and biopharmaceutical products. Topics include pathogenesis mechanisms of diseases, translational medical research, biomaterial in biomedical research, natural bioactive molecules, biologics, vaccines, gene therapies, cell-based therapies, targeted specific antibodies, recombinant therapeutic proteins, nanobiotechnology driven products, targeted therapy, bioimaging, biosensors, biomarkers, and biosimilars. The journal is open for publication of studies conducted at the basic science and preclinical research levels. We invite you to consider submitting your work to *Biomedicines*, be it original research, review articles, or developing Special Issues of current key topics.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [CAPUS / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q1 (*Pharmacology & Pharmacy*) / CiteScore - Q2 (*Medicine (miscellaneous)*)
