

## Advances in Cellular Biophysics: Transport and Mechanics

Guest Editors:

**Prof. Dr. Boris Musset**

Center of Physiology,  
Pathophysiology and Biophysics,  
Paracelsus Medical University,  
90419 Nuremberg, Germany

**Prof. Dr. Peter Pohl**

Institute of Biophysics, Johannes  
Kepler University Linz,  
Gruberstraße 40, 4020 Linz,  
Austria

Deadline for manuscript  
submissions:

**20 December 2024**

### Message from the Guest Editors

Dear Colleagues,

Here, we would like to document the proceedings of the Cellular Biophysics (Section III) International Workshop of the German Biophysical Society (DGfB). Moreover, the interdisciplinary character of the workshop features results from many distinct branches of research, such as physics, biochemistry, physiology, medicine, molecular biology, pharmacology, and biology. Clustering these branches of research grants a unique opportunity to exchange knowledge and scientific progress, as well as state-of-the-art techniques. Substantial insights into the rapidly developing topic of cellular biophysics shall be presented, converging on the topic of membrane transport.

Membrane transport impacts almost all pathologies known today, from neuronal, immunological, cardiovascular, metabolic disorders to even cancer. Deciphering the complex and unidentified mechanisms of membrane transport ultimately may lead to comprehension, control, drug development, and finally medical treatment or technological inventions that further improve the quality of life.

We look forward to receiving your contributions.

an Open Access Journal by MDPI

## Editors-in-Chief

Science, Virginia Commonwealth  
University, Richmond, VA 23284,  
USA

## Message from the Editorial Board

*Biomolecules* is a multidisciplinary open-access journal that reports on all aspects of research related to biogenic substances, from small molecules to complex polymers. We invite manuscripts of high scientific quality that pertain to the diverse aspects relevant to organic molecules, irrespective of the biological question or methodology. We aim for a competent, fair peer review and rapid publication. Please look at some of the exciting work that has been published in *Biomolecules* so far. We would be delighted to welcome you as one of our authors.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q1 (*Biochemistry & Molecular Biology*) / CiteScore - Q1 (*Biochemistry*)
