Message from the Guest Editors

Dear Colleagues,

To celebrate and highlight the achievements of women in biosensors research, a Special Issue entitled “Women in Biosensors (Volume II)” is being launched, which will present biosensors-related work from leading women scientists. We hope that this Special Issue can further encourage and promote the scientific contributions of women researchers in this field.

This Special Issue welcomes both research and review papers on the most recent and innovative developments of biosensors for applications in the food, health, security, defense, and environmental fields. To be considered for this Special Issue, the corresponding author should be a woman scientist.

Message from the Editor-in-Chief

Biosensors is a leading journal, devoted to fast publication of the latest achievements, technological developments and scientific research in the exciting multidisciplinary area of biosensors. Both experimental and theoretical papers are published, including all aspects of biosensor design, technology, proof of concept and application. Special issues are devoted to specific technologies and applications, and a selection of the most outstanding papers each year is recognized. Pushing the boundaries of the discipline, we invite original papers, as well as timely reviews on cutting edge fields within the subject area.

Author Benefits

Open Access:— free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank: JCR - Q1 (*Chemistry, Analytical*) / CiteScore - Q1 (*Engineering (miscellaneous)*)
