Message from the Guest Editors

Dear Colleagues,

The main topic of this Special Issue concerns the application of new principles, new methods, and new technologies of microfluidics in the field of in vitro diagnostic assays. For that, this Special Issue seeks to publish original articles and reviews on novel microfluidic fabrication; sampling and detection technologies and methods; and their applications in biochemical assays, immunoassays, molecular diagnostics, and microbial and cellular assays. You are invited to participate in this project. Any contribution in this sense is welcome to this Special Issue.

If you are interested in submitting a contribution, or if you have any questions, please do not hesitate to contact me.

Dr. Peng Chen
Prof. Dr. Yiwei Li

Special Issue

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Giovanna Marrazza

Department of Chemistry “Ugo Schiff”, University of Florence, via della Lastruccia 3, 50019 Sesto Fiorentino, Italy

Message from the Editor-in-Chief

Biosensors is a leading journal, devoted to fast publication of the latest achievements, technological developments and scientific research in the exciting multidisciplinary area of biosensors. Both experimental and theoretical papers are published, including all aspects of biosensor design, technology, proof of concept and application. Special issues are devoted to specific technologies and applications, and a selection of the most outstanding papers each year is recognized. Pushing the boundaries of the discipline, we invite original papers, as well as timely reviews on cutting edge fields within the subject area.

Author Benefits

Open Access:— free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank: JCR - Q1 (*Chemistry, Analytical*) / CiteScore - Q1 (*Engineering (miscellaneous)*)
