Deadline for manuscript
submissions:

30 November 2024

Message from the Guest Editor

Dear Colleagues,

The remit and the definition of neuropsychiatry have widened considerably. We aim to capture recent research-based advances in neuropsychiatry. We invite papers, reviews, and meta-analyses on studies that cover the epidemiology, clinical aspects, and neurobiology of neuropsychiatry. It will cover the brain-behaviour relationship in the context of a variety of conditions. This list includes acquired brain injury, traumatic brain injury, epilepsy, genetic syndromes, neurodevelopmental disorders, neurodegenerative and neurocognitive disorders, neuroimmunology, neuronal networks, the neurobiology of psychiatric disorders, sensory impairments, and the psychiatric aspects of various neurological disorders and functional neurological disorders, etc. Translational research may cover genetics, neuroimaging, neurobiology, neuroinflammation, neuroendocrinology, biomarkers, etc. We welcome papers on neuropsychology, clinical trials involving pharmacological and non-pharmacological interventions (cognitive behaviour therapy, mindfulness-based meditation, psychosocial rehabilitation), neuromodulations (rTMS, tDCS, vagus nerve stimulation), and neurosurgery.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Brain Sciences* (ISSN 2076-3425). *Brain Sciences* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on neuroscience. The scientific community and the general public can access the content free of charge as soon as it is published.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PSYINDEX, CAPlus / SciFinder, and other databases.

Rapid Publication: manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.6 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the second half of 2023).
