

## Translational Omics in Neurodegenerative and Neurodevelopmental Disorders

Guest Editors:

**Dr. Shiek S.S.J. Ahmed**

Multi-Omics and Drug Discovery  
Lab, Chettinad Academy of  
Research and Education,  
Chennai 600130, India

**Dr. Prabu Paramasivam**

Department of Neurology,  
University of New Mexico Health  
Sciences Center, Albuquerque,  
NM 87131, USA

Deadline for manuscript  
submissions:

**31 October 2024**

### Message from the Guest Editors

Recent high-throughput technologies have significantly extended the domains of genome, epigenome, transcriptome, proteome, and metabolome in neuropathogenesis. Certainly, these omics data can be integrated to define the relationship at various biological states from genome to metabolome, thereby accelerating research that aimed at identifying biomarkers, pharmaceutical targets, and personalized drugs and treatment by uncovering the mechanisms behind complex neurodevelopment disorders and neurodegenerative diseases.

The Special Issue of *Brain Sciences* aims to provide recent breakthrough research on multi-omics translational regulation in neurodegenerative and neurodevelopment disorders. We invite authors to submit their findings in the following version: research articles, short communication reports, and review articles on the translational application for the above-mentioned Special Issue.

an Open Access Journal by MDPI

## Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Brain Sciences* (ISSN 2076-3425). *Brain Sciences* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on neuroscience. The scientific community and the general public can access the content free of charge as soon as it is published.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PSYINDEX, CAPus / SciFinder, and other databases.

**Rapid Publication:** manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.6 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the second half of 2023).
