Universidad Complutense de
Madrid, Madrid, Spain

Prof. Dr. Joaquín López Pascual

Departamento de Economía de
la Empresa, Facultad de Ciencias
Jurídicas y Sociales, Universidad
Rey Juan Carlos, Madrid, Spain

Deadline for manuscript
submissions:

closed (15 September 2021)

Message from the Guest Editors

Neuroeconomics is a fairly new discipline, and one of its challenges is understanding financial decision-making. Although our lives are often determined by the financial decisions we make, we still do not fully understand what causes these choices. Neuroeconomics has managed to go one step further by including neuroscience in the study of this decision-making process.

In this emerging new field, most research has focused on certain brain areas based on what neuroscience literature has discovered so far. However, many related areas require further research.

Thus, original articles or critical reviews submitted to this Special Issue should cover topics from a wide range of views and fields, such as neuroscience, neuroimaging, cognitive neuroscience, psychology, behavioral neuroscience, economics, and statistics. All original research articles and reviews investigating these topics will be welcomed.

This Special Issue seeks original contributions demonstrating the significant advancements, innovations, relevance, and potential growth in the forthcoming years of this field of neuroscience.

Special Issue

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Stephen D. Meriney

Department of Neuroscience,
University of Pittsburgh,
Pittsburgh, PA 15260, USA

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Brain Sciences* (ISSN 2076-3425). *Brain Sciences* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on neuroscience. The scientific community and the general public can access the content free of charge as soon as it is published.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PSYINDEX, CAPlus / SciFinder, and other databases.

Rapid Publication: manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.6 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the second half of 2023).
