

Brain–Microbiome Interactions

Guest Editor:

Dr. Keehoon Lee

Co-Director of TGen Integrated Microbiomics Center, Research Assistant Professor, Pathogens and Microbiome Division, Translational Genomics Research Institute (TGen North), Flagstaff, AZ, USA

Deadline for manuscript submissions:

closed (29 September 2020)

Message from the Guest Editor

This Special Issue on brain–microbiome interactions is focused on, but not limited to, understanding the effect of the microbiome on brain activity, brain-related disorders, and mental health and on developing new cutting-edge techniques for studying the brain–microbiome relationship.

I invite authors to submit original research papers (clinical and translational) and methodology research papers, as well as reviews and perspectives that provide guidance to investigate the relationship between the brain and the microbiome.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Brain Sciences* (ISSN 2076-3425). *Brain Sciences* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on neuroscience. The scientific community and the general public can access the content free of charge as soon as it is published.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PSYINDEX, CAPus / SciFinder, and other databases.

Rapid Publication: manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.6 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the second half of 2023).
