Message from the Guest Editors

Cervical Myelopathy: Current Hurdles and Future Perspectives is now open for submission.

Our aim is to focus on the current knowledge on the development and progression of cervical myelopathy. What are the current obstacles and prominent problems in cervical spondylotic myelopathy? What is the latest technological development? What are the prospects for the future? The neurobiology of cervical myelopathy, pathological degeneration of spinal cord, advanced diagnostics, conservative treatments, surgical techniques and neurorehabilitation strategies for patients with neurological impairments will be discussed. Papers on pathophysiology, pathological anatomy, advanced diagnosis, conservative treatment, new surgical techniques, neurorehabilitation and supportive care are welcome.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Brain Sciences* (ISSN 2076-3425). *Brain Sciences* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on neuroscience. The scientific community and the general public can access the content free of charge as soon as it is published.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PSYINDEX, CAPlus / SciFinder, and other databases.

Rapid Publication: manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.6 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the second half of 2023).
