Message from the Guest Editors

Dear Colleagues,

People with Multiple Sclerosis (MS) often experience alterations in their cognitive abilities, including, but not limited to, information processing speed, memory and attention. Cognitive assessment tools, advanced neuroimaging techniques and non-pharmacological interventions are rapidly evolving fields of research aiming to facilitate the management and/or prevention of cognitive decline in the context of MS.

This Special Issue of *Brain Sciences* seeks commentaries, original research, short reports, and reviews focusing on the challenges in detecting, monitoring, and managing cognitive decline in MS. This Special Issue aims to provide information about advances in the research of cognitive assessment and the development of measurements for the early detection of cognitive impairment, neuroimaging and the overall impact of cognitive impairment in MS.

Deadline for manuscript
submissions:

20 October 2024

Special Issue

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Stephen D. Meriney

Department of Neuroscience,
University of Pittsburgh,
Pittsburgh, PA 15260, USA

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Brain Sciences* (ISSN 2076-3425). *Brain Sciences* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on neuroscience. The scientific community and the general public can access the content free of charge as soon as it is published.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PSYINDEX, CAPus / SciFinder, and other databases.

Rapid Publication: manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.6 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the second half of 2023).
