Deadline for manuscript submissions:
closed (15 December 2021)

Message from the Guest Editors

Parkinsonian syndromes are a heterogeneous group of neurodegenerative diseases that differ significantly from one another in terms of associated pathology and pathogenesis, clinical course, and prognosis. Large-scale clinico-pathological examinations have led to a more precise description of the clinical spectrum of these diseases. Imaging and laboratory markers (e.g. structural and functional MRI, FDG- and Tau-PET, CSF and blood biomarkers) are of particular research interest and will enable a more precise and earlier differential diagnosis and progression monitoring of patients with parkinsonian syndromes. The latest genetic, epigenetic and biochemical modalities allow more detailed insights into the etiology and pathogenesis. From a therapeutic point of view, new options for disease-modifying interventions have emerged from neurobiological insights. The Special Issue aims at presenting the latest advances related to clinical, pathogenetic, diagnostic, and therapeutic aspects of parkinsonian syndromes.

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Brain Sciences* (ISSN 2076-3425). *Brain Sciences* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on neuroscience. The scientific community and the general public can access the content free of charge as soon as it is published.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PSYNDEX, CAPlus / SciFinder, and other databases.
Rapid Publication: manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.6 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the second half of 2023).
