Sant'Andrea Hospital, Sapienza  
University, Via di Grottarossa  
1035, 00189 Rome, Italy

Deadline for manuscript  
submissions:

**31 October 2024**

### Message from the Guest Editors

Dear Colleagues,

Thoracic neoplasms include a heterogeneous group of diseases requiring multidisciplinary interaction for diagnosis and treatment. Lung cancer is surely the leading cause of cancer-related deaths worldwide. Over the last decades, significant advancements have been achieved in managing these tumors, especially when considering diagnostic tools for staging and restaging, integrated oncological protocols and refinements in surgical technique. Progresses in surgical approach have included minimally invasive procedures and increasing experience with more extended reconstructive operations.

The aim of this Special Issue, “First-Line Therapy in Thoracic Oncology” will focus on some of the main diagnostic and therapeutic aspects in thoracic oncology, to highlight topics from the perspective of different specialties involved in this field.

We invite you to contribute with an original article or a review article dealing with a topic in the research area of Thoracic Oncology. Let us know if you are interested providing a title for your contribution.

We look forward to receiving your contributions.

Oncology and Reproductive  
Medicine, The University of Texas  
MD Anderson Cancer Center,  
Houston, TX 77030, USA

## Message from the Editor-in-Chief

*Cancers* is an international online journal addressing both clinical and basic science issues related to cancer research. The journal is publishing in Open Access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Oncology*) / CiteScore - Q1 (*Oncology*)
