### Message from the Guest Editors

Dear Colleagues,

In recent years, dentistry has increased coordination in research and begun cooperation with other disciplines.

This Special Issue focuses on the most recent and significant innovations in the treatment and diagnosis of oral cancer, paying attention to multidisciplinary, technological, and research aspects, as well as how they can be involved in oral health and clinical dentistry practice. New molecular mechanisms and approaches in the diagnosis and treatment of oral cancer have been discovered. The applications of this techniques can lead to significant advances in all branches of dental practice. Authors conducting studies on these themes are invited to submit original research articles and reviews.

## Message from the Editor-in-Chief

*Cancers* is an international online journal addressing both clinical and basic science issues related to cancer research. The journal is publishing in Open Access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Oncology*) / CiteScore - Q1 (*Oncology*)
