Deadline for manuscript
submissions:

closed (31 October 2023)

Message from the Guest Editor

Dear Colleagues,

This Special Issue focuses on the diagnosis and treatment of gastroenteropancreatic tumors, with world-leading experts in the field providing the readers with contemporary treatment and diagnosis algorithms, as well as a glimpse into novel and evolving treatments.

Gastrointestinal pancreatic neuroendocrine neoplasms (GEP-Nets) present many diagnostic and therapeutic challenges due to their relative rarity and complexity. Therefore, the latest findings on biomarkers, peptide receptor-based therapy or imaging therapy, etc., for the treatment of gastroenteropancreatic tumors are exciting. We would like to invite an array of scientific readers to contribute their research to this Special Issue of *Cancers*, dedicated to the generic topic of the diagnosis and treatment of gastroenteropancreatic tumors, such as gastric neuroendocrine tumors, pancreatic neuroendocrine tumors and small intestinal neuroendocrine tumors.

We would like to thank you in advance for your enthusiastic participation in this exciting Special Issue of *Cancers*.

Prof. Dr. Peter Stålberg

Message from the Editor-in-Chief

Cancers is an international online journal addressing both clinical and basic science issues related to cancer research. The journal is publishing in Open Access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Oncology*) / CiteScore - Q1 (*Oncology*)
